

"Delivery was on time and installation was done quickly. We are pleased with the results. The installer was personable and acted very professionally."

- Robert + Janet B.  
(Oak Arbor, OH)

"We love our new set!"

- Alicia M. (Coralville, IA)

"Would highly recommend!"

- Lindsay H.  
(New Concord, OH)

"Fabulous service and friendly staff. My children love the playset and play on it from after school until dark."

- Kyle H.  
(Swinckley, PA)

The

Process

Fun, fresh air and exercise are only **three steps** away!

Step 1

## Order

**Browse:**  
*Browse our catalog to discover the right playset for your family.*

**Customize:**  
*Choose from a variety of features, accessories and styles to create a playset tailored to your needs.*

**Order:**  
*Visit your local PlayMor dealer to place your order and schedule your installation.*

Step 2

## Prep

**Find a Site:**  
*Pick a level area with enough space around it to allow kids to run and play comfortably.*

**Clear:**  
*Ensure the site is free from rocks, branches or other obstacles.*

**Level:**  
*Check if your site is level then remove or add dirt as needed. Consider hiring a professional to do this for you.<sup>1</sup>*

Step 3

## Install

**Confirmation:**  
*The installer confirms your installation as the date nears.*

**Assembly:**  
*The installer handles the full assembly.*

**Safety Check:**  
*The installer performs a safety check on your new playset to make sure it's ready for action!*

# Warranty

### What’s covered?

|             | Description                                                                                           | Examples                                                                               |
|-------------|-------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Covered     | <b>Faulty Craftsmanship:</b><br>We made the part incorrectly in our shop.                             | - We miss several screws on a swing beam causing the top cap to come loose.            |
|             | <b>Defective Materials:</b><br>We used sub-par materials.                                             | - A slide develops a crack during typical use.                                         |
| Not covered | <b>Typical Wear and Tear:</b><br>fading or minor surface wear                                         | - A canopy slightly changes color due to sun exposure.                                 |
|             | <b>Extreme Weather:</b><br>damage from severe storms                                                  | - Severe winds blow a tree down onto your playset.                                     |
|             | <b>Improper Use:</b> incorrect installation (if not installed by a PlayMor crew) or major alterations | - You buy a slide from a big box store then remove and cut boards to make room for it. |

### What happens if there’s a defect?

|               | Description                                          | Examples                                           |
|---------------|------------------------------------------------------|----------------------------------------------------|
| What we'll do | PlayMor will repair or replace defective components. | - An installer fixes the loose swing beam top cap. |
|               |                                                      | - An installer delivers and installs a new slide.  |
